PPROJECTS

– **Management Software Platform.** This platform supports churches, college and schools with an intuitive, secure interface for seamless event management, communication, and record-keeping. Tailored features, multi-factor authentication, and encryption ensure safety, while the user-friendly design enhances accessibility. It's a reliable, efficient solution for managing church or school activities confidently.

Skills Used: HTML, CSS, Bootstrap, JavaScript, AJAX, JQuery, PHP, Laravel, MySQL

– **Hospital Management System.** A comprehensive system for managing various aspects of a hospital, including patient records, appointments, billing, and inventory.

Skills Used: HTML, CSS, Bootstrap, JavaScript, AJAX, JQuery, PHP, Laravel, MySQL

– **Church Directory.** The All Muslim Church Directory is a user-friendly platform that connects Muslim communities with job opportunities. It combines a directory and job board integration, allowing profile management, job applications, and secure, efficient job searching in one intuitive interface.

Skills Used: HTML, CSS, Bootstrap, JavaScript, AJAX, JQuery, PHP, MySQL

– **Online Shopping Platform.** The Online Shopping Platform is a comprehensive product search and sales hub, allowing users to browse products, create and manage profiles, and list items for sale. Key features include user registration, product listings, notifications, and profile management. Integrated with affiliate marketing for sellers, it provides an intuitive interface that enhances the shopping experience and streamlines the buying and selling process, making it easy and efficient for users.

Skills Used: HTML, CSS, Bootstrap, JavaScript, AJAX, JQuery, PHP, Laravel, MySQL

– **Achievements.** Completed internship on web application deployment with Amazon web services on 9 January 2022.
